

6th ANNUAL CCBIO SYMPOSIUM 2018

Scientific program (prefinal)

Day 1: Wednesday May 23, 2018

09:00-10:00 REGISTRATION AND COFFEE

10:00-10:15 **Lars A. Akslen** (Director of CCBIO): Introduction to the CCBIO Symposium 2018

Chair: Randy Watnick

10:15-11:00 **Richard Hynes**: Extracellular matrix vulnerabilities in cancer

11:00-11:30 **Bruce Zetter**: RNA therapy in the treatment of cancer

11:30-12:00 **Frederick Locke**: CAR T-cell technology against cancer

12:00-12:30 **Thomas F. Meyer**: Do bacterial pathogens provoke distinct mutations in their host?

12:30-14:30 LUNCH AND POSTER SESSION I

Chair: Arne Östman

14:30-15:00 **Therese Sørli**: Mouse models for breast cancer progression

15:00-15:30 **Carina Strell**: Exploring stroma characteristics as mediators of breast DCIS progression and as markers for radiation-response

15:30-16:00 **Ian G. Mills**: Stress response signalling in prostate cancer

16:00-16:30 COFFEE

Chair: Roger Strand

16:30-17:15 **Leonard Fleck**: Just Caring Challenges: Visible Biomarkers and Invisible Rationing

17:15-17:45
Comment I: **Oddbjørn Straume**
Comment II: **Ole Frithjof Norheim**

19:30 DINNER

Day 2: Thursday May 24, 2018

Chair: Rolf Brekken

09:00-09:30 **Sui Huang:** Non-genetic heterogeneity and Non-linear Dynamics of Tumors: Why Cancer Treatment Can Backfire

09:30-10:00 **Mark LaBarge:** The role of microenvironment in cancer susceptibility and drug tolerance

10:00-10:30 **Ole W. Petersen:** On the candidate cells of origin of human breast cancer

10:30-11:00 COFFEE

Chair: Dana Costea

11:00-11:20 **Fanny A. Vatter:** High-dimensional analysis of single human mammary epithelial cells with age

11:20-11:40 **Kenneth Finne:** Proteomic profiles across breast cancer subtypes

11:40-12:00 **Gry S. Haaland:** Association of warfarin use with lower overall cancer incidence

12:00-12:20 **Liv C. V. Thomsen:** Cryoimmunotherapy against cancer – status and outlook

12:20-14:20 LUNCH AND POSTER SESSION II

Chair: Karl-Henning Kalland

14:20-14:50 **William N. William Jr.:** Developing Personalized Cancer Prevention and Therapy Strategies: a Clinical Trials Perspective

14:50-15:20 **Christina Fotopoulou:** Predictive biomarkers in the surgical treatment of epithelial ovarian cancer

15:20-15:50 **Ursula Klingmueller:** From insights into regulation of erythropoiesis towards optimized treatment of anemia

15:50-16:20 **Hrvoje Miletic:** Microtubes – communication structures of brain tumor cells

16:20-16:30 **Bjørn Tore Gjertsen (Co-Director of CCBIO):** Closing remarks

Save the date for the 7th CCBIO Symposium: May 13-14, 2019 (Solstrand)
