

# CCBIO Junior Scientist Symposium

**17 September 2020**

Online event in Zoom

Illustrations: Colourbox.com

In the keynote lecture, Christine Stansberg (ELIXIR) and Kari Ersland (Digitalt Liv Norge) will talk about how to implement digital tools in your research and inform you how to get help analyzing your biological data. In addition, local junior researchers will present their work on cancer therapy resistance, obesity and cancer, salt-sensitive hypertension, and metabolomic signatures predicting heart failure. Join us for a perfect occasion for professional input and digital networking!

## SCIENTIFIC PROGRAM

|             |  |
|-------------|--|
| 09:00-09:15 | Welcome  |
| 09:15-10:00 | <b>Keynote lectures:</b><br>«How may ELIXIR Norway help you analyse your data?»,<br><b>Christine Stansberg</b><br>«Centre for Digital Life Norway», <b>Kari M. Ersland</b> |
| 10:00-10:20 | BREAK  |
| 10:20-10:40 | “The role of skin lymphatics in salt-sensitive hypertension”,<br><b>Irene Matre Thowsen</b>  |
| 10:40-11:00 | “TAM receptor dynamics in melanoma therapy resistance”, <b>Jing Kang</b>   |
| 11:00-11:30 | BREAK  |
| 11:30-11:50 | “Metabolomic signatures that predict heart failure in rats”,<br><b>Anne-Maj Samuelsson</b>   |
| 11:50-12:10 | “Role of obesity in development of breast cancer”, <b>Anastasiia Rulina</b>  |

Symposium chairs are **Cornelia Schuster**, **Kenneth Finne** and **Maria Lie Lotsberg**.
